1. **Presentation Software**

1.1 **PowerPoint:** It helped the students to provide with visual aids to complement teaching, simulate discussion, and to allow out-of-class teaching

1.2 **Flipped Classroom:** Usage of *Screen-cast-0- Matic* tool helped the faculty to create the videos to explain the content and demonstrate the concepts . Videos helped both teachers & Students to make use of class time more productive.

2.3 **Pow-Toon**: Powtoon tool helped the students to quickly & easily learn from the created animated presentations. The presentations were created by manipulating pre created objects, imported images, provided music and user created voice over. Few powtoon animated videos created on the topics like "Pointers in C", "Objects in C++", "Phases of Compiler", Difference between static & Dynamic Data " and oops concepts etc helped the students to learn in better way.

The Animated Vidoes created by the faculty in respective courses
