C. Utilization of Centre of excellence

Students regularly engage in hands-on projects, experiments, and real-time problem-solving tasks related to their domain. The lab supports continuous learning through mini-projects, major projects, and skill-based assignments. Faculty members guide students in developing innovative solutions, testing prototypes, and implementing new technologies.

The CoE also facilitates collaborative work, where students work in teams to design, develop, and evaluate projects, thereby enhancing their technical skills and practical exposure.
