

Pharmacy
We're more than just
prescriptions.

PHARMACIST RESPONSIBILITIES

Patients care, from dispensing right medications to monitoring patient health.

Progress to optimize patient's response to medication therapies.

Pharmacists also educate patients on the use of prescriptions and over-the-counter medications. Pharmacists educate and advise physicians, nurses, and other health professionals on medication therapy decisions.

Pharmacists also provide expertise about the composition of drugs, including their chemical, biological, and physical properties and their manufacture and use.

Pharmacists ensure drug purity and strength and make sure that drugs do not interact in a harmful way.

Pharmacists are medication experts ultimately concerned about their patients' health and wellness.
